2) **PRESENTATION BY SAGE 3 CAPITAL SDN BHD**

Mr N. Ravindran, the partner from Sage 3 Capital Sdn Bhd ("Sage 3 Capital") presented a brief update on the Company's proposed regularisation plan ("Proposed Regularisation Plan"), the salient items were highlighted as follows:-

I) SOLVING DEBT PROBLEM

- a) Within the last twelve (12) months, PPTB reached an agreement with six (6) banks and approximately 300 MTN holders to reduce the debt of approximately USD400 million to USD250 million, with a repayment period of eight (8) years, at a lower interest rate.
- b) USD250 million is a sustainable debt level for PPTB and could be repaid vide revenue generated from the PP101 Rig and Perisai Kamelia FPSO.
- c) Non-core assets and non-operating subsidiaries should be disposed and the business would be streamlined.

II) SHARE PRICE AND WHAT NEEDS TO BE DONE

- a) Share prices normally would increase upon the completion of the restructuring exercise as the Company would be financially stronger.
- b) Recoveries of PPTB would be a claim of USD43 million vide the put option.
- c) Critical for the FPSO to be redeployed given its strong revenue generation capability i.e. the largest asset on the balance sheet.

III) MILESTONES THAT SHAREHOLDERS WOULD NEED TO WATCH OUT

- a) To execute Settlement Agreements.
- b) To obtain Bursa Malaysia Securities Berhad and Securities Commission Malaysia's approval.
- c) To convene Extraordinary General Meeting to obtain shareholders' approval for issuance of new shares and instruments to creditors.
- d) Court Sanction only after FPSO contract is secured – creditors to waive a portion of the debt and accept instruments as part settlement.

Subsequent to the presentation by Mr N. Ravindran, the following enquiries were addressed:-

- a) When would the Proposed Regularisation Plan be finalised?
- b) What would be the amount of additional impairment the Company need to declare?

Sage 3 Capital's response:-

The Proposed Regularisation Plan is a complex case and hopefully it would be completed within the next twelve (12) months. There was tremendous compromise from the banks for the Company to continue and the Proposed Regularisation Plan could be finalised once the contract for the FPSO is secured.

On the issue of impairment, the Company would rely on valuation reports and professional judgment from valuers and Management would continuously monitor the impairment with the assistance from the advisors.

Managing Director's response:-

The Managing Director, Datuk Izzet highlighted that Management has been marketing the assets of the Company for approximately one and a half years. In view of the improvement in oil price this year, the Company has received various enquiries from companies within and outside of Malaysia and hopefully, the FPSO contract could be secured by next year.
